

ELECTRICAL DUCTING

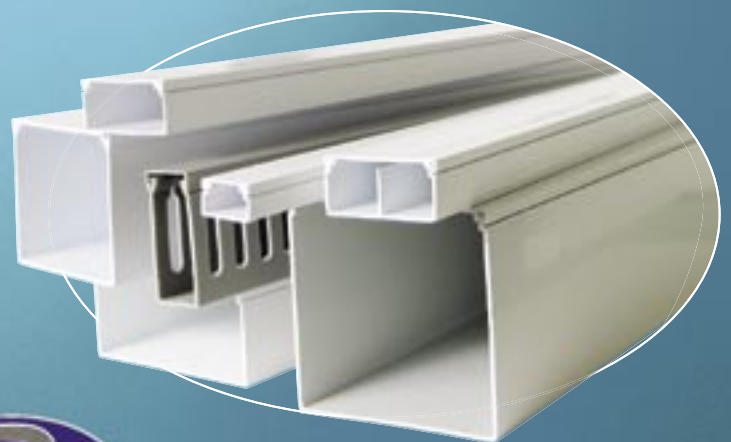

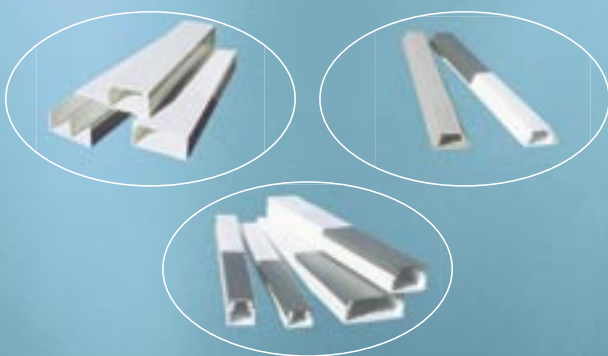

When quality unobtrusive surface wiring is needed in either domestic, commercial or industrial situations, the popular choice is the versatile **HPP range of Electrical Ducting**.

Due to our revolutionary **lid clipping system**, more cables can be fitted into our ducting.

The HPP Electrical Ducting system is simple to use, reduces installation time and easily allows for further extensions or additions to be made. The HPP Electrical Ducting system ensures a much neater installation, with minimal disturbance to walls, ceilings or floors. **Installation is easy**. HPP Electrical Ducting can be fitted with screws, or our industrial grade double sided tape.

PRODUCT SELECTION

Code	Size	Colour	Length	Pack size
